LASHONE = THE LANGUAGE
HA QODESH = OF DEDICATION
QADDAM = FROM THE BEGINNING

The Father remains the same ... yesterday, today, and tomorrow ... and with that in mind, He commanded us to never add to or take away from His Word. Unfortunately, after nearly six thousand years, His Word has been augmented and diminished in a myriad of ways - not only by interpreting the original Aramaic/Hebrew writings of Scripture into other languages, but also by reading those interpretations with a very different mindset ... a very different way of thinking, which misconstrues the things the Father is actually saying.

Let this mind be in you
Which was also in Mashiach Yahshua.

Pilipiyim (Philippians) 2:5

To have the mind of Mashiach, means to think as Yahshua thought ... and to think as He thought, we must understand the Eastern mindset that He had ... and this requires an adjustment to our Western way of thinking. Even the Hebrew language, in today's modernized version, has been westernized to a great degree. Consider these differences:

YAHU**WESTERN MINDSET****BASED ON ABSTRACT IDEAS**

- Attention is given to **Form**

A pencil is a yellow stick with a pink rubber ball on one end and a dark gray point at the other end.

- You must **Understand** in order to **Do**
- Everything is viewed as **either/or** - there is only **one** way of seeing things; it's **either** "this" or "that"

Example: "GRACE"

All concordances and dictionaries define "grace" (or even the Hebrew word "channah") as "favor" and "kindness" - abstract terms, which display no **object** of any kind ... and take you right back to where you started - nowhere.

QADDAM**EASTERN MINDSET****BASED ON CONCRETE IDEAS**

- Attention is given to **Function**

A pencil is something I **write** with.

- You must **Do** in order to **Understand**
- There are **multiple** ways of seeing things

Example: "GRACE"

The Father's pictographic letters for this word - channah - paint a picture of **pitching a tent** with Elohim.

To protect and surround (chet) ... His children (nun) ... teaching them through revelation (hey).

By learning to study key words in Scripture, using the Father's original pictographic alephbet, we will begin to change our ways of thinking ... we will start seeing the Word and its message as it was intended to be seen ... and eventually, we will begin to see not only that the whole Word is a picture of Yahshua, but that the picture itself is built on the most basic elements: A house, a family, and a garden!

The Father's Word and His alephbet are comprised of the most basic and simple things for us to understand! It's all about the sun (rising in the east, bursting light into the darkness or setting in the west and diminishing into darkness), water (being washed by His Word), blood (being purchased by the shedding of His blood), seeds (the Good Seed and the Bad Seed), thorns, roots, trees and vines, branches and shoots, and fruit ... it's all about eyes (what we see), ears (what we hear), hearts (what we understand), arms and hands (what we do), feet (which path we walk on), heads (what we think and who our headship is), mouths (what we say and who we praise) ... and it's all about the house of Elohim – the family, The Door (Yahshua), a tent peg which secures our house, a plowing tool used to dig into His Word and to plant seeds with, a fence that

surrounds and protects, a basket that catches fish and stores bounty, and a staff that steers and teaches the flock.

With that being understood, we do not need to learn the Aramaic/Hebrew language at all! Because the Father's anointed message is clearly preserved in each picture He has painted through the letters of His alphabet!

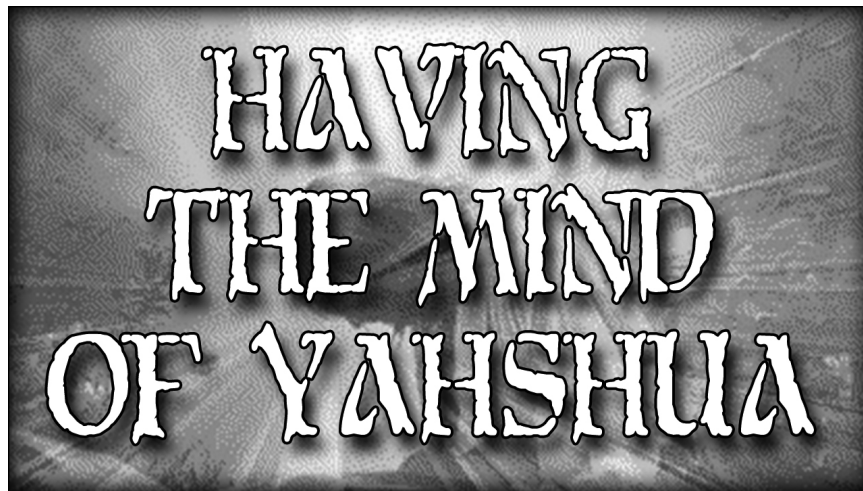

Consider Alexander the Great ... who, at the early age of eighteen, conquered the entire world. How did he do that? What made him so successful? He didn't enslave his captors ... he didn't imprison them or starve them to death ... he simply changed their language! He knew only too well, as does Satan, that if you change languages, you change mindsets and cultures, as well. And this has been Satan's game! He has drawn people away from knowing the Father's original language; he has succeeded in causing everyone to forget LaShone haQodesh Qaddam and to think in ways that are contrary to the Father's original ways ... contrary to **The Way!**

This book is designed to compliment my YouTube videos ... to help you follow along with me as I deliver deeper and more accurate understandings about the Father's Word. It is also designed to get

you started on your own journey into the marvels and mysteries of Scripture.

If you haven't yet watched my video, titled **Having the Mind of Christ**, I urge you to do so before you go any further. I posted this video on my YouTube channel on October 25th, 2013.

Go to www.YouTube.com/WatchAlan to watch it ... its thumbnail icon looks like this (except it's in color):

This video includes a very powerful delivery about the mindset of Yahshua ... about the way it has been obscured by Satan ... and how we can restore it for ourselves and for others. Please watch this video and every video that follows from that date forward, on my YouTube channel.

**For then I shall turn unto the peoples
a clean lip (a pure language), so that they all
call on the Name of Yahweh,
to serve Him with one shoulder.**

TsephanYah (Zephaniah) 3:9

What follows are my reference charts, revealing the most ancient pictograph letters of the Father's language. I've outlined all twenty-two of them, along with their numerical values (His letters also serve as numbers) and all their meanings.

A letter, in the Aramaic/Hebrew, is an **ot** (say "oat") and means "a sign" ... the plural is **otiot** (say "oat-ee-oat") ... and words are written and read from right to left.

Also ... please note that, since I was unable to find any font library containing the proper combination of pictographs, I drew each one of these myself. Afterwards, I thought to myself, *"How appropriate! This is just how it should be done ... personally ... and by hand!"*

I trust this work will help you as you join with me in discovering how to properly *pitch a tent* with our beloved Abba Father Yahweh!

Shalom, my friend!

HOW TO CONDUCT YOUR STUDIES

The quickest way, of course, is to contact me with a query ... and I'm happy to conduct a video teaching for you on my YouTube channel ... providing it's a study that benefits many. However, if you want to learn to do this yourself, here are the processes I use:

Firstly, since Strong's Concordance references *only* the King James Version of the Word, we need to use the KJV, for the most part, in determining the English words that have been used to interpret the First Covenant books ... and secondly, since Strong's *only* refers to the Greek interpretations of the Renewed Covenant books, we need to go to the AENT (see below) in determining the English words that have been used to interpret the Renewed Covenant books.

Re: The First Covenant Books

When it comes to the First Covenant books - Genesis through Malachi, we begin by taking any English word from any of the First Covenant books

that you want to understand more fully. Next, you will go to **Strong's Exhaustive Concordance of the Bible**, published by *Hendrickson Publishers*.

As an example, we'll look at the word "friend" as found in 2 Chronicles 20:7 (KJV), where it says that Abraham is Elohim's **friend** forever.

1. We look up the word "friend" in Strong's, listed alphabetically, and see that, for 2 Chronicles 20:7, the reference number for the English word "friend" is *H157*.

2. We then go to the back of Strong's, under *Dictionary of Hebrew and Aramaic Words* and look up number *H157*, where we see that the original Aramaic/Hebrew word is *ahab* ... and that this word is comprised of three Aramaic/Hebrew letters: aleph, hey, and beyt (right to left).

Note: You'll see that the Aramaic/Hebrew letters in Strong's are from the Modern Hebrew alphabet ... so I've made a chart for you to reference, on page 23. Once you know the correct otiot (letters) from the Modern Hebrew, you can then turn to the more ancient pictograph otiot.

3. Finally, you can look the otiot up in the previous section of this book and put your study together!

In so doing, you will easily see that this English reference to Abraham being Elohim's *friend* lacks the much more meaningful picture that is revealed when looking at the Aramaic/Hebrew word!

By looking at the two *outside* otiot - aleph and beyt - we see that Yahweh is the Father and the headship (aleph) of Abraham's house and family (beyt) ... and then, by looking at the ot in the center - hey - we see that this is because of Abraham's spiritual worship and awe for the Father! Thus:

The word *ahab* is saying that Yahweh has become the Father and Headship of Abraham's house and family because of Abraham's spiritual worship and awe for the Father.

Now doesn't that say a whole lot more than, "*Abraham was the Father's friend*"? It sure does! And even more than that, it starts filling our own thoughts with the Eastern mindset of Yahshua - bringing to mind the idea of *pitching your tent with Elohim!*

Re: The Renewed Covenant Books

Unfortunately, when it comes to the Renewed Covenant books - Matthew through Revelation, Strong's does not allow us to discover the original

Aramaic/Hebrew words that were penned, because it *only* references the Greek texts for these books. There is way around this, however, and that is to use the **Aramaic English New Testament**, compiled by *Andrew Gabriel Roth* and published by *Netzari Press*. To obtain a copy of this book and to see how this process works, see my YouTube video titled **Aide to Alan's Book**, dated December, 2013 ... or type this link into your web browser:

This video will clearly show you the steps I take in researching both the First and the Renewed Covenant books.

 Alan explains how to increase your faith. Contrary to most teachings, faith does not come by hearing the Word. Rather, faith comes by hearing – spiritual hearing ... and spiritual hearing comes by experiencing revelation from Elohim through His Word.
